

Supplementary File to:

The partisan consequences of secularisation: An analysis of (non-)religion and party preferences over time

Contents

Table S.1: replication of Table 2, including data from Québec (excluding the Bloc Québécois)

Table S.2: replication models including data from Québec and including the Bloc Québécois in the baseline

Table S.3: regression analyses of the effects of (non-)religion and religiosity on respondents' views regarding issues of traditional morality

Table S.1: Multinomial Logistic Regression Estimates of Party Preferences including Data from Québec, 1975-2005
